PROFESSIONAL EXPERIENCE

NOTCH8 | San Diego, CA (Downtown)

July 2019 to August 2019

Intern Software Engineer

- Contributed to building version 3 of the education software, REU Manager, along with fellow interns and software engineers.
- Utilized technology such as Ruby on Rails, React.js, GitLab, Docker and AWS Cloud9.
- Delegated tickets amongst the intern team with the goal of optimizing efficiency.
- Learned new languages as necessary, such as .haml to replace html.erb files.
- Collaborated with various engineers in order to debug and continue personal growth and education.

LEARN ACADEMY | San Diego, CA (Downtown)

March 2019 to July 2019

Graduate, Full-Time Student

- Implemented newly learned languages and technologies by completing exercises and building programs.
- Projects completed include, but are not limited to: Pig Latin Translator (JavaScript, HTML, CSS, Jest), Tic-Tac-Toe & Battleship (React.js) and Paw Pals, Apartmentalize and Brew2U (React.js, Ruby on Rails, PostgreSQL, Jest, RSpec).
- Practiced collaborative programming in the forms of paired and mob programming.
- Experience instructing weekend Jumpstart course and Build-Your-First-Website as a volunteer instructor.

KLEAR SHAKER, LLC | San Diego, CA

March 2018 to Current

Co-Founder

- Coordinates marketing and business strategy with partners in order to optimize profitability.
- Continually seeking potential businesses and individuals in order to formally present products through an informative approach.
- Demonstrates intellectual property behind products with the use of slideshows and scientific research studies.
- Assists with products' design and functionality pivots.
